

**II International specialized exhibition "InterAgroBusiness"** will be held in Odessa, **September 23-25, 2010**. The exhibition is supported by the Ministry of Agrarian policy of Ukraine, Odessa regional state administration and also leading associations in the sphere of agrarian industry. Official business-partner of the exhibition - Association "Ukrainian Agribusiness Club".

The main objective of the project is the assistance to agrarian sector of the Ukrainian economy development, invasion of modern agricultural technologies into the agro industrial complex of our country, widening of cooperation between Ukrainian and foreign enterprises of the agrarian brunch.

For the first time "InterAgroBusiness" exhibition was held in October 2009. More then 65 companies from Ukraine, Georgia, Germany and Turkey took part in the exhibition. They got the opportunity not only to represent their agrarian equipment, products and services among the Ukrainian farmers, analyze the competitiveness of the let out production and the market demand, but also to share experience, information and to expand the circle of business contacts.

In 2010 domestic and foreign agricultural equipment, mechanics and accessories, equipment for processing and storage of agrarian products, fertilizers and agro chemistry, leading technologies of farming and growing of agrarian cultures, bio energetic, services in AIC and lots of other things necessary for the work of modern farmers.

Within the limits of the exhibition business program is planed to provide the conference **"Storage of the soil fertility in the South of Ukraine"**, and also the raw of forums, seminars and presentations for the professionals of the agrarian brunch.

As a whole the project "InterAgroBusiness" will present wide opportunities for the constructive dialogue between farmers, sharing the experience and information, and also will promote the successful development and increase of agricultural production, expansion of International cooperation and increase of the competitiveness of Ukrainian products on the world markets.

The project is oriented on the heads and specialists of the agricultural enterprises, farming, and enterprises on agro products processing, domestic and foreign traders.
